Dometic Inflatable
Awning Guide

DOMETIC INFLATABLE AWNINGS

Choose the best inflatable awning

OUR HISTORY

For over 100 years, Dometic has been designing innovative, durable and sustainable products for use in vehicles over land and sea that allow consumers to enjoy the comforts of home in the outdoors, no matter how far from home.

Read more online, visit: dometic.com

When travelling in your RV, you have the freedom to stop at the most beautiful places. Simply turn off your ignition, get the tables and chairs out and enjoy the marvellous views.

A Dometic awning gives you added pleasure by transforming the area in front of your vehicle into your own mobile patio, where you will spend many relaxing hours. You can also quickly create an extra living or sleeping space with a patio room accessory, which comes complete with mesh screens to protect from bugs and roll down panels for privacy.

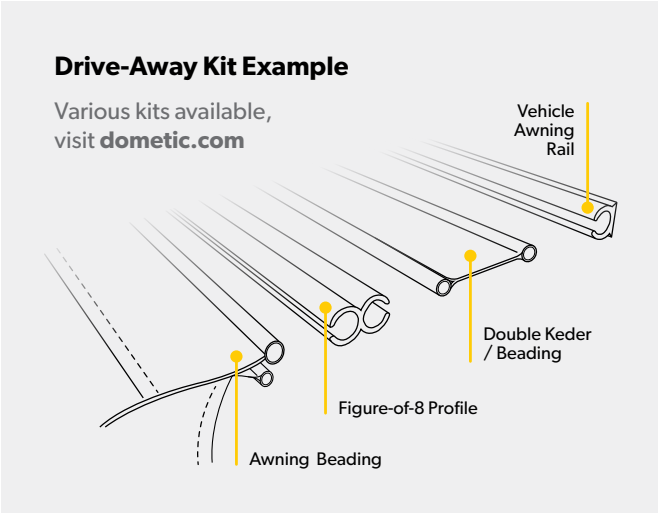

STATIC AWNINGS

For tourers wanting an awning designed for static use, our best-selling static awnings are easy to set-up and take-down, providing fantastic fitting to the vehicle side and first class accommodation. Utilising the unique AIR Frame system, which links individual AIR Poles together, Dometic static awnings can be conveniently inflated from a single point. Twin beading comes as standard (5 mm and 7 mm) and can either be fed through the awning rail attached to your vehicle or threaded through the front channel of a cassette awning.

DRIVE-AWAY AWNINGS

Dometic free-standing awnings are available in a range of sizes, built to fit vehicles with a connection height between 180 and 300 cm. Our innovative drive-away awnings are versatile by design, adjustable connection tunnels fit securely to most motorhomes, panel vans and campervans. As standard, all drive-aways can be attached with included straps over the vehicle or velcro loops.

AIR FRAME CONSTRUCTION

Single point inflation

Individual AIR Poles are linked together allowing the entire awning to be inflated from a single external inflation point. The entire AIR Frame is easily deflated through quick release deflation valves at the base of each leg; as each AIR Pole is connected there is no need to deflate each AIR Pole individually. So, as well as being the easiest awnings to set-up, the user-friendly Dometic awnings are also the easiest to take down.

Quick and secure – our innovative air frame has revolutionised touring

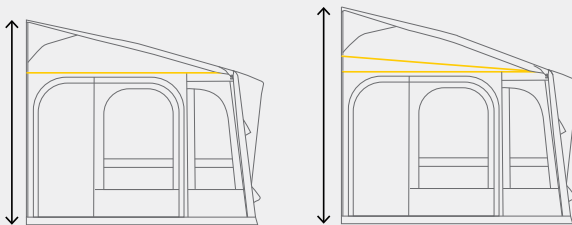

KEY FEATURES

Inflatable static awnings

 **Learn more**
Scan the QR code to browse all awning features on **dometic.com**

1 Multi-Height system
Height adjustable awning technology ensures fitment across multiple vehicle types.

S 235 - 265 CM **M** 265 - 295 CM **L** 295 - 325 CM

2 QuickPitch™ Guying System
Heavy-duty straps can be pegged out in seconds. Peg the bottom strap taut and adjust the top buckle to apply tension.

3 Dual-Pitch™ Roof System
Effectively deflect wind and shed rain water efficiently to prevent puddling on the roof and enhance performance.

4 Single point inflation
Conveniently inflate the entire AIR Frame from just one external inflation point.

5 SabreLink™ ready
Attach up to three lights on the front and centre AIR Poles. Switch the lights on/off and adjust the brightness remotely.

6 Limpet® ready
Pre-punched holes ready to attach the rear wall of the awning to the vehicle using Limpet Fix technology.

7 Dual keder
5 mm and 7 mm keder for fitment to caravans and motorhome cassette awnings

8 Apex ventilation
Ventilation improves comfort by increasing air circulation and reducing condensation.

AWNING MATERIALS
High quality fabrics tested for durability

Weathershield™ All-Season

Ultra-rugged and UV resistant material for touring in hot climates and seasonal use

Weathershield™ Pro

A traditional canvas look with modern double-coated polyester weatherproofing

Weathershield™ 150D

Extremely lightweight yet durable Weathershield 150D polyester

Weathershield™ PVC

400g/m2 Weathershield™ PVC is tough, waterproof and easy to clean

Weathershield™ Redux

Waterproof, lightweight, and environmentally responsible

MADE WITH RECYCLED MATERIALS

Waterproof and UV Protected

All awning material is tested to 200L/m2 per hour to ensure that you are kept dry. Dometic awning material allows only 1/50th of ultraviolet rays to pass through, ensuring you're protected and kept cool.

RESIDENCE AIR

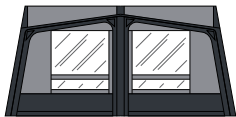

Full awning, full performance

The Residence is a full awning caravan that utilises the full length of the awning rail. With it's classic shape, 275cm depth, external blinds and breathable All-Season fabric, the Residence caravan awning is ideal for seasonal pitch use.

COMPLETE THE LOOK

Visit dometic.com to view the comprehensive range of optional extras and accessories.

Carpets
Each carpet is hard-wearing, breathable, UV stabilised and tailored to your awning.

Footprints
Tough non-breathable awning footprints reduce condensation when pitched on wet ground.

Mesh Panels
Simply zip the mesh in behind the awning panel to keep insects out and add shaded comfort.

Lighting
Reliable lighting for nighttime convenience.

Roof Linings
Insulate the roof and regulate the interior temperature. Recommended for early and late season use to minimise the effects of condensation.

Solar Shades
Easily zips onto your awning roof to help keep you cool, protect from bird droppings and block UV rays.

Furniture
Our camping furniture allows you to make the most of your time away with friends and family.

Set-Up
A wide range of accessories are available to make set-up and pack-down as easy as possible.

Explore the full range online

Dometic have hundreds of accessories for awnings, from weather protection and furniture to lights and portable batteries.
