DOMETIC ON THE WEB

Here’s where you can find the complete Dometic range, with detailed information about all products. Plus, interesting facts about our company and download links for all our catalogues.

dometic.com

UNIQUE TO DOMETIC

Innovations developed exclusively for Dometic camping tents

Rear storage area Patent Pending

As family campers know, keeping the living space of the tent tidy is essential when staying put for any length of time. The Dometic storage area provides the solution to camping clutter and keeps your living space free for relaxing with friends and family.

Unique to Dometic camping tents, the rear storage area is located behind the inner tents of each model and is ideal for storing luggage, clothes and other bulky items. Access to this area is through the zipped door in the back of the inner whilst the structure of the space is maintained with aluminium struts and Quick Pitch straps.

Inner Tents

Sleep soundly when camping with a Dometic tent. Our blend of SleepTite darkened material, breathable polyester or polycotton and sizeable door mesh create an environment conducive to a great night's sleep. There's no compromise on space either, Dometic inner tents afford each person at least 70 cm of width and 225 cm of depth, meaning there's plenty of room to stretch out and experience the same comfort you would at home.

Smart external storage and stuff pockets for the inner tent doors help to keep the tent tidy in the day whilst the elastic securing loops and valance create a near seamless connection between the inner and tent flysheet.

Tent Folding Lines Patent Pending

For novice and experienced campers alike, packing your tent away at the end of a trip can be a challenge. To combat this, Dometic camping tents feature small fabric Glow orange tab markers which highlight the folding lines point. Simply fold the back of the tent to this marker which will then give the ideal width to be able to roll your tent away to the ideal size to fit back in the bag.

Climate Control Ventilation

High and low level ventilation located on the sides and rear of Dometic camping tents reduces condensation and improves comfort.

Redesigned to incorporate lightweight aluminium support poles, the mesh ventilation points provide plenty of relief on hot summer days and the ability to keep warmth inside the tent when closed.

Door Tie Backs

Roll back your front door and mesh panel quickly and more securely than ever before. Dometic tents feature heavy duty webbing straps with a quick-release clip for superior convenience and performance.

Zipped Blinds

Zipped window blinds with easy-store pockets provide endless adjustment and privacy when you need it.

Reflective Quick Pitch Guying System

The best guying system made better. Dometic Quick Pitch straps feature 2 lines of reflective stitching for extra visibility when navigating around the tent at night.

Durable Pegs

In addition to our versatile plastic pegs, Dometic tents include 10 extra-tough Rock Pegs. These additional pegs are included to help you pitch on stoney and uneven ground, enabling you to stay longer and thrive in any environment.

Cable Entry Points

Keep your electronics charged up when enjoying the outdoors in a Dometic camping tent. Cable entry points are included as standard on 3 sides of our larger models and on 2 sides of the FTC range, ensuring you stay in touch with the outside world whilst you get lost in nature.

Carabiners

Add convenience to your outdoor holiday with Dometic. Durable carabiners hanging centrally in the porch and living areas of our camping tents are ideal for hanging lights, electric fans and other small camping accessories.

KEY FEATURE ICONS

Included as standard, innovative features to enhance your camping experience

Climate Control

High and low level vents create airflow to ventilate your tent. Ventilation helps prevent condensation and improves comfort.

Sleep-Tite Darkened Bedrooms

Inner tents use dark materials to help block out early sunlight for a good night's sleep.

Quickpitch™ Guying System

Heavy-duty straps can be pegged out in seconds. Peg the bottom strap taut and adjust the top buckle to apply tension.

SabreLink™ Ready

Attach up to three lights in the living area. Switch the lights on/off and adjust the brightness remotely. Also suits poled tents.

Tent Folding Lines

Glow folding lines make setting down and folding the tent away a simple process.

Luggage Area

Unique to Dometic camping tents, the rear storage area is located behind the inner tents of each model and is ideal for storing luggage, clothes and other bulky items.

Zipped Blinds

Zipped window blinds with easy-store pockets provide privacy when you need it.

Wider Bedrooms

On average, Dometic bedrooms are the widest available, ensuring a comfortable night's sleep.

Wardrobe Pole Ready

Simply clip-in to either the left or right hand inner tents to add hanging storage to your Dometic tent.

Cable Entry Points

For added convenience, all tents have zipped cable entry points for 12V and mains cable access.

Headroom

Near vertical side walls ensure Dometic camping tents provide ample living space throughout and generous headroom from front to back.

Waterproof

Tested to 200L/m² per hour to ensure that you are kept dry.

DOMETIC AIR FRAME

Our groundbreaking innovation has revolutionised camping

Dometic inflatable tents will transform your camping experience. Our reliable Air Frame system uses multiple inflation and deflation points for the most straightforward, time-saving tent set-up and takedown.

The Dometic Air Frame is constructed with durable, oversized Ø12 cm Air Poles, which create an extremely strong yet flexible structure. Each tent comes with a manual hand pump or for maximum convenience, simply plug in the optional Gale 12 V pump.

For optimal performance
inflate to 10 psi

TENT MATERIALS

Weathershield™ TC

High quality polycotton material allows the tent to breathe, reducing condensation and regulating the interior temperature on hot days.

Weathershield™ 150D

Extremely light and easy to handle. Highly durable and weather-resistant too, this versatile polyester offers great value with no compromises.

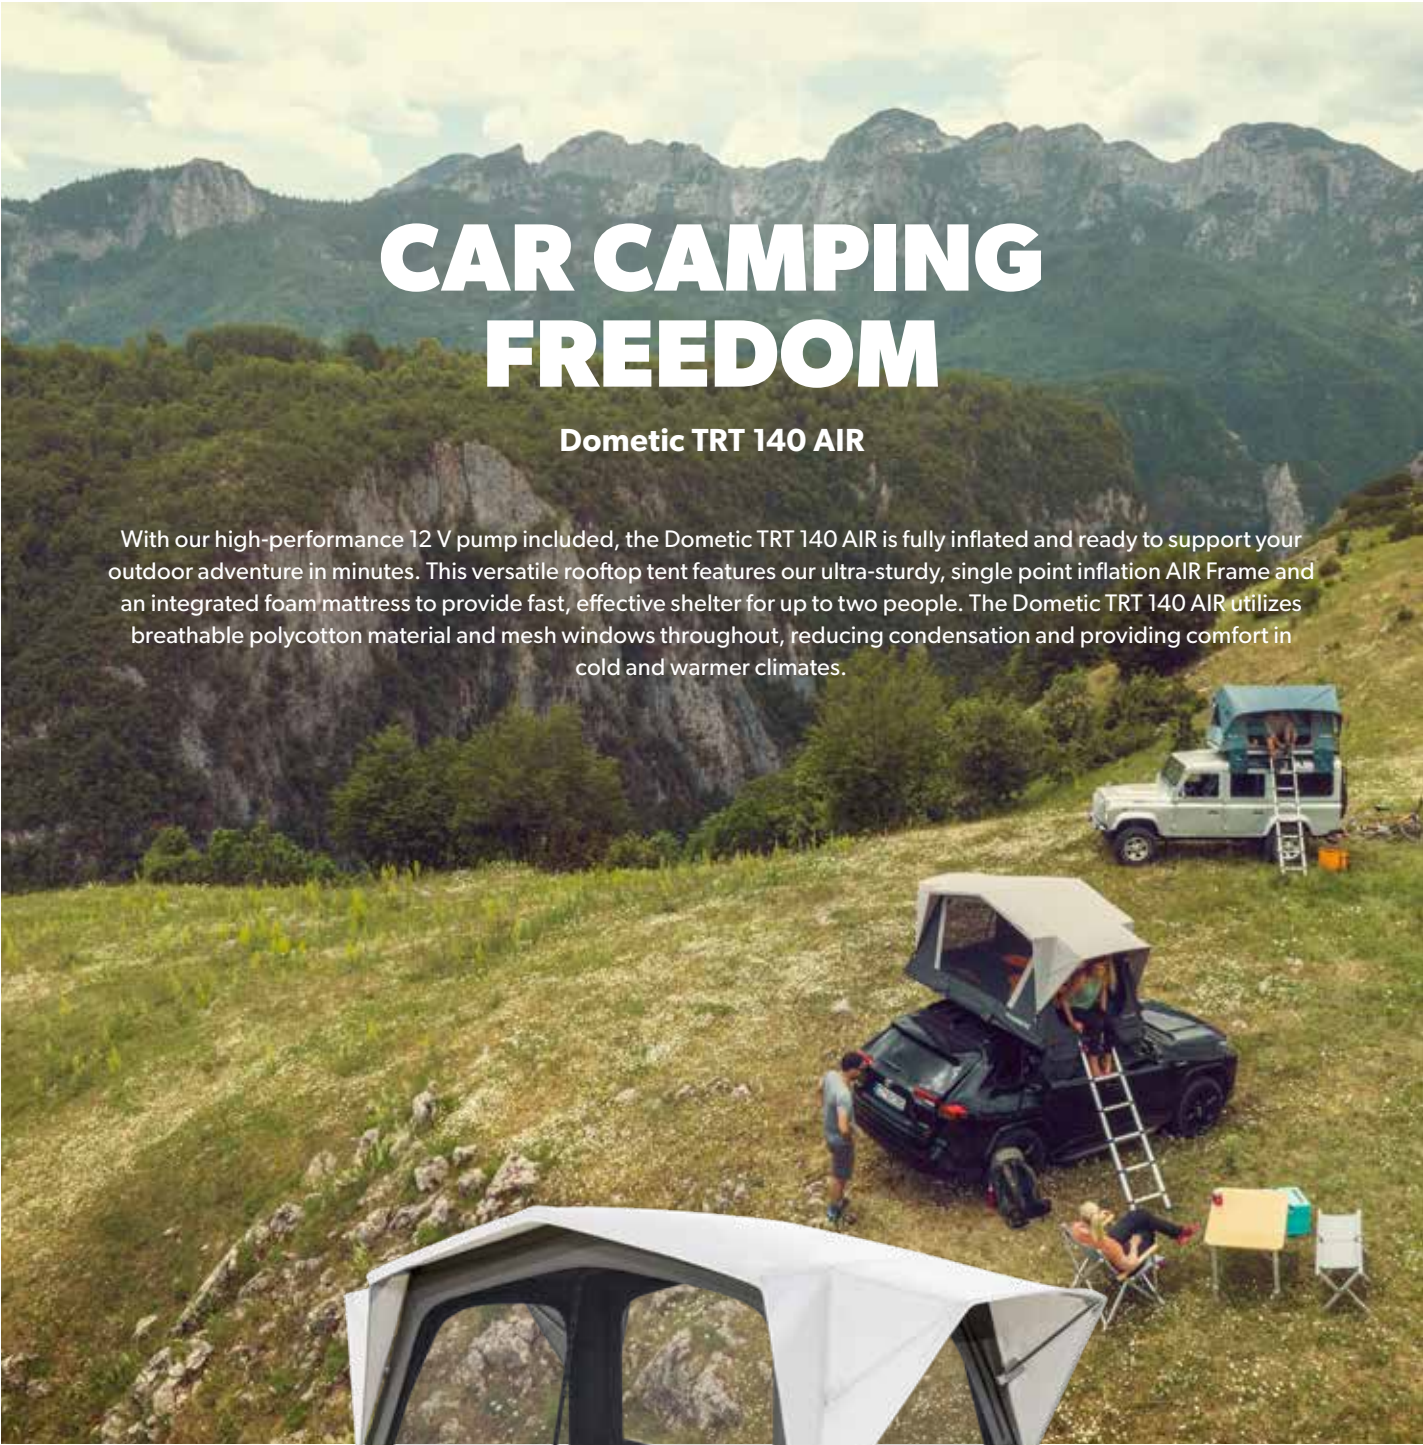

Weathershield™ Redux

Waterproof, lightweight, and environmentally responsible. This polyester is woven from recycled plastic bottle yarn, providing reliable protection from the elements without compromise.

Each Air Pole is made of a strong TPU inflation tube that is zipped into a tough reinforced polyester cover. This is then zipped into a heavy-duty sleeve in the tent. The result is an extremely well protected, durable Air Frame which requires no maintenance.

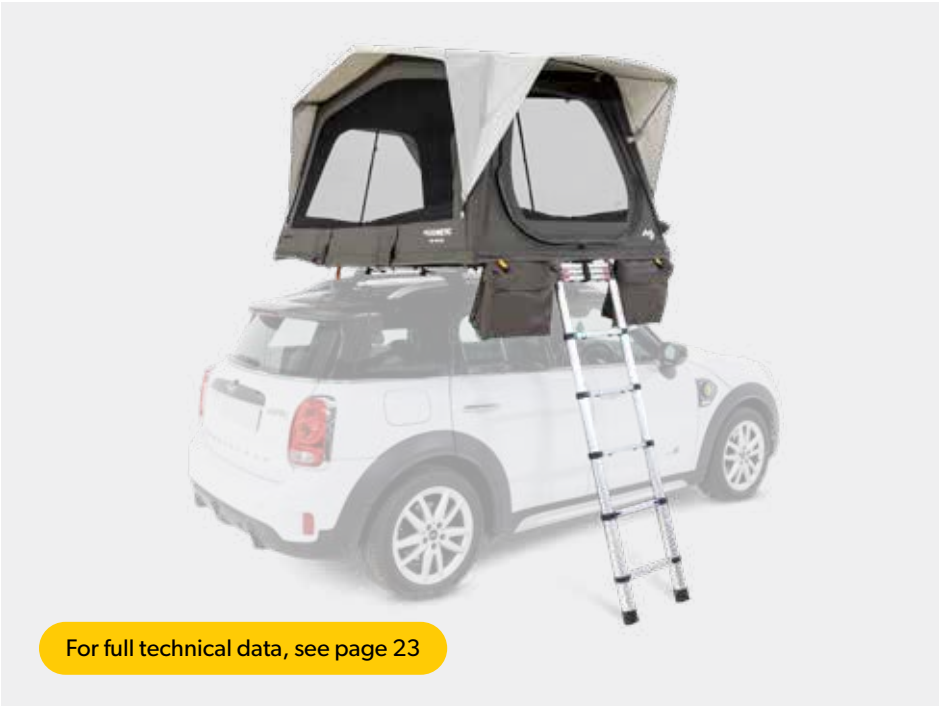

CAR CAMPING FREEDOM

Dometic TRT 140 AIR

With our high-performance 12 V pump included, the Dometic TRT 140 AIR is fully inflated and ready to support your outdoor adventure in minutes. This versatile rooftop tent features our ultra-sturdy, single point inflation AIR Frame and an integrated foam mattress to provide fast, effective shelter for up to two people. The Dometic TRT 140 AIR utilizes breathable polycotton material and mesh windows throughout, reducing condensation and providing comfort in cold and warmer climates.

Dometic TRT 140 AIR

- 12v electric pump (included)
- Single point inflation
- Fast, effective shelter for up to two people
- Breathable technical cotton material and mesh windows throughout
- Width: 2190 mm
- Depth: 1440 mm
- Height: 1100 mm
- Sleeping area: 2100 x 1400 mm
- Pack size: 1460 x 800 x 320 mm
790 x 500 x 115 mm
- Weight: 48.62 kg / 9.02 kg

Ref. 9120002118

Quick and easy to pitch

Sturdy inflatable tent frame with 12 V electric pump

Compact pack size

Tri-fold design for convenient transport and storage

Full comfort control

Polycotton fabric, mesh windows and zipped blinds for extra comfort

Optional

Dometic RT Awning

Adding privacy and shelter to your car camping setup, the Dometic RT Awning can be set up as either an all round sun shade or a privacy room in a matter of minutes.

- Width: 2200 mm
- Depth: 1900 mm
- Connection Height: 1450 - 1690 mm (Low) / 1700 - 2000 mm (Tall)
- Weight: 8.21 kg (Low) / 8.64 kg (Tall)
- Low - designed for use with standard height passenger cars
- Tall - designed for use with taller SUVs and off-road vehicles

Ref. 9120002119 (Low) / 9120002120 (Tall)

SANTORINI FTK TC

Experience camping luxury

The ideal inflatable camping tent for families and groups alike, the Dometic Santorini FTK TC is constructed with advanced technical cotton material and features a large integrated canopy to ensure you remain sheltered, comfortable and dry throughout your camping

trip. Sleep comfortably anywhere inside the tent or clip-in the option inner tent for added comfort and privacy. Zipped, bug-proof mesh panels on all sides of the tent provide maximum airflow control, reducing condensation and regulating the interior temperature.

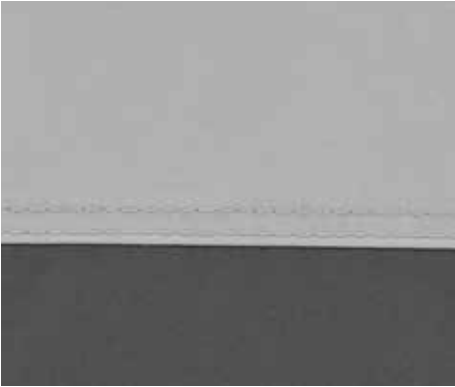

Large ventilation panel

Zip-close or open, the gusseted rear mesh panel helps ensure interior comfort.

Integral inflatable canopy

Increased the livable space of the tent and provides additional overhead cover.

Weathershield™ TC

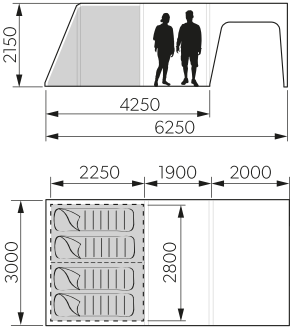

Polycotton material reduces condensation and regulates the interior temperature.

REUNION FTG REDUX

Built for adventure

MADE WITH RECYCLED MATERIALS

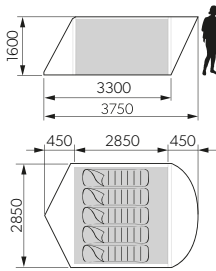

587 PLASTIC BOTTLES
have been recycled to make the Dometic Reunion FTG 5X5 tent

Designed to pack down small and pitch fast, the inflatable Dometic Reunion FTG camping tent ensures quick, effective shelter for up to 5 people. Constructed using lightweight Weathershield Redux polyester, woven from yarn made from recycled plastic bottles, it's high-performance and extremely reliable. The Reunion FTG features an all-round bug proof design without compromising airflow, the lightweight mesh construction keeps you cool even in warm climates. Should the weather change and the rain come down, simply clip-on the flysheet and continue your adventure.

Dometic Reunion FTG 5X5 REDUX

- Pack size: 700 x 300 x 300 mm
- Weight: 13.16 kg

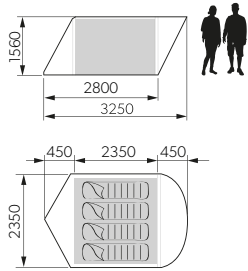

Ref. 9120002103

Dometic Reunion FTG 4X4 REDUX

- Pack size: 600 x 300 x 300 mm
- Weight: 11.52 kg

Ref. 9120002108

Panoramic views

Outer flysheet can be removed to increase ventilation and allow for panoramic views

ASCENSION FTX TC

Thrive outdoors

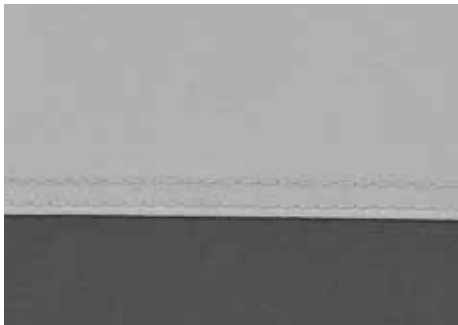

Embrace the outdoors with the Dometic Ascension FTX TC. The spacious living area, advanced technical cotton construction and clever 3-position front door ensure you can stay outdoors in comfort longer. Use the generous storage area behind the inner tent to keep your belongs safe and your tent clutter free.

Rear Storage Area
Store luggage with ease using the generous rear storage area accessed through the inner tents.

Zip-out Porch Door
Zip-out the 6-position front porch door for a seamless transition from outside to inside.

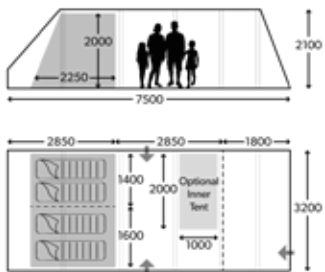

Weathershield™ TC
Polycotton material reduces condensation and regulates the interior temperature.

Dometic Ascension FTX 401 TC

- Pack size: 1000 x 640 x 580 mm
- Weight: 54.01 kg
