Here's where you can find the complete Dometic series, with detailed information about all products. Plus, interesting facts about our company and download links for all our catalogs.

DOMETIC.COM/PROFESSIONAL

GIVE YOUR GUESTS AN UNFORGETTABLE STAY

You will find more Dometic minibars and safes than any other make in first-class hotels across the world. Why? Know-how accumulated more than over 50 years, a track record of innovation as well as leading design solutions are the three main reasons.

The top of the line Dometic HiPro Evolution and Alpha range minibars are developed with your business experience in mind. A sustainable minibar is a smart minibar. The HiPro Evolution range is just that. Boasting precise temperature control, world-class efficiency and the best minibar cooling capacity, the premium Dometic HiPro range ensures chromate-free absorption technology checks in for a clean, sustainable future in your hotel.

Dometic HiPro minibars
The next generation of minibars

The state-of-the-art design of Dometic HiPro will help you create a premium in-room feeling. With sleek design, elegant illumination and crystal clear doors, invite your guests to treat themselves to something special.

Sustainability checking in

Sustainability means doing more with less. It's a philosophy we put into action with outstanding energy efficiency and the first chromate free minibar range on the market. A sustainable minibar is a smart minibar. The all new HiPro range delivers more powerful cooling with up to 40% less energy consumption, making a visible difference in OPEX for hotel owners.

Read more on this on p. 12

Dometic drawer minibars
Unique design, outstanding construction

Our drawer minibars are a class of their own in terms of design, size and functionality. Noiseless cooling, convenient slide-out access.

Read more on this on p. 22

DRIVING SUSTAINABILITY IN OUR INDUSTRY

After recently having been granted the “Most Efficient 2024” EnergyStar certification in the USA, Dometic also scored the “Leader Level” for its minibar products in the MindClick Sustainability Assessment Program (MSAP) of the hospitality sector. These accomplishments stand as a testament to the dedication and hard work of our exceptional team. We are committed to maintaining and even elevating our efforts in driving sustainability in our industry.

More and more hotel guests today expect a sustainable travel experience. Dedicated to a more sustainable lifestyle, they seek to reduce their overall carbon footprint – including that of their travels. When it comes to choosing their holiday accommodation, they are likely to prefer hotels that share their mindset. The MindClick Sustainability Assessment Program (MSAP) helps traveller and hotel brands to make well informed decisions in the jungle of labels and certifications.

The MindClick methodology rates candidates into three levels based on their scores: Starter, Achiever or Leader. Dometic achieved notably high scores in the rating, with emphasis on hotel impact, end-of-use considerations, packaging, and social/environmental aspects of production. That means that Dometic minibars are currently performing at “Leader Level”, which is not only an achievement we are proud of, but also a motivation to keep up our efforts in developing sustainable solutions for the future.

DOUBLE STAR AWARD

In addition to numerous other international awards, the Dometic HiPro minibar generation received the golden Star Award in the Food & Beverage category. This well-known award is voted by readers and decision-makers in the hotel industry and thus sets a clear exclamation mark behind this latest generation of minibars.

The Dometic MoBar was also successful and received the gold Star Award in the Technology category.

MORE INFORMATION
ABOUT STAR AWARD

DOMETIC MINIBARS

Always at your service

Premium can’t be measured. It’s all about the first impression, elegant design, and the silence that your guests appreciate. What can be measured is efficiency. With improved cooling performance and up to 40% lower energy consumption, it’s clear to see why the HiPro range is considered the world’s best minibar. After more than 50 years in the hotel business and 6 million installed units, we’re proud to say that we’re pioneering the hotel industry. Again.

1. COST REDUCTION

The new HiPro offers best-in-class energy efficiency – no matter which cooling technology is used.

2. SUSTAINABILITY

We work hard to achieve even lower footprints within manufacturing as well as energy consumption.

**PIONEERING
THE HOTEL INDUSTRY.
AGAIN.**

We believe in sustainable innovation for a better guest experience.

3. GUEST EXPERIENCE

HiPro will not only deliver premium cooling performance – it is also an attractive and sales promoting feature in the guest room.

4. STRONG PARTNERSHIP

After more than 50 years in the hotel business we have a strong promise to ensure care free maintenance.

COOLING TECHNOLOGY

Dometic HiPro minibars are available with three different cooling technologies: absorption, thermoelectric, and compressor cooling. All have been improved and refined in the new HiPro range with the best cooling capacity and lowest energy consumption on the market – up to 50% less compared to standard units.

1. ABSORPTION

Up to 40% lower energy consumption.

2. THERMOELECTRIC (NTE)

Up to 20% lower energy consumption.

3. COMPRESSOR

Up to 50% lower energy consumption.

- Improved cooling performance
- Best-in-class energy efficiency
- Sustainable production and footprint
- Global sales and service network

THE WORLD'S BEST MINIBARS

NEW DOMETIC HIPRO MINIBARS

1

Lower energy consumption
The HiPro range reduces energy consumption by up to 50% versus older models.

2

Premium guest experience
The HiPro line is an attractive and sales-promoting feature in the guest room.

3

Improved cooling power
Improved cooling capabilities with updated and optimized functionality.

4

A strong partner
With more than 50 years of experience and more than 6 million installed units; we are a proven partner.

Many business travelers are constantly on the move living a suitcase life. Most days represent hard work with long hours – arriving late to the room preparing for the next day’s meeting while burning the midnight oil. That’s why the minibar is a much-appreciated feature offering cold beverages and energizing snacks. For the leisure tourist, the hotel minibar is an opportunity to enjoy a cold beverage at the late arrival check-in, after a long city excursion, while getting ready for a fun night out, or perhaps waking up with a need to quench the thirst.

VENTILATION GUIDELINE

To ensure **optimum cooling performance** with minimum energy consumption, several basic principles need to be followed when installing a minibar. The heat which the cooling unit extracts from the refrigerator interior is emitted at the back of the minibar.

There must be **sufficient ventilation** here to prevent a build-up of heat. The free ventilation space for the new HiPro Absorption and Compressor for incoming air should be at least 24 in² (150 cm²) and outgoing air at least 31 in² (200 cm²), while for the HiPro NTE the space for the incoming and outgoing air should be at least 31 in² (200 cm²).

The free ventilation space for the DM50C Compressor and DM20 Thermoelectric for incoming and outgoing air should be at least 31 in² (200 cm²), while for the DM50NTE Thermoelectric the space for the incoming and outgoing air should be at least 62 in² (400 cm²).

The distance from the rear of the minibar to the rear wall of the furniture must be at least 1 inch (2 cm). When installing the minibar, ensure that it is standing on a stable and horizontal surface, and not directly near a heat source.

You can find all our documents, manuals and guidelines at documents.dometic.com.

- The minibar must be placed on a surface that is level in both directions
- There should be a 1 inch (2 cm) clearance to the wall
- Ventilation must be provided as shown in the drawings below (A, B, C or D)
- The entire cooling unit should protrude into the ventilation duct as shown below
- Air passing through the duct must not be warmed up by any source of heat

THE SERIES OF DOMETIC PROSAFE MODELS

Security is an essential requirement for hotel guests, and one of the main reasons for choosing or discarding a destination and a hotel. The Dometic GROUP, aware of this, is always developing and improving all of its products in order to meet the needs of customers.

The latest product innovation Dometic has launched is a proSafe series which goes one step further in terms of design, functionality, technology and security. This proSafe series has a modern design with a white LED display, an illuminated keypad, the latest anti-tampering system and

a new website platform which offers the possibility to operate the safe with the strictest security. The elegant cabinets of the new proSafe generation have rounded corners and edges for enhanced safety and contemporary design

- Master key
- LED interior light
- iAudit system – unique in the industry
- Remote Emergency Opening System (REOS 2.0) – ultimate security and user comfort
- Battery level check

Premium Class

Excellence in form and function: Dometic innovations like iAudit tracking and the REOS Remote Emergency Opening System ensure security on all levels.

Standard Class

High security level combined with easy operation for perfect comfort and convenience.

PRODUCT FINDER – THE QUICK WAY TO FIND THE RIGHT PRODUCT

Laser-cut door

Our doors are precisely cut and crafted by a laser beam. This allows us to achieve 100% accuracy in dimensions and an extremely small clearance between the door and casing, making the door almost impossible to pry open.

REOS code

REOS stands for Dometic’s Remote Emergency Opening System. The emergency-opening system from Dometic is based on an innovative encoding system. The unique solution combines advanced electronics with state-of-the-art online technology to allow simple yet highly secure emergency opening by authorised hotel staff.

Premium iAudit

All operations effected on a safe must be documented – for your own security and for your insurance provider. This is where Dometic’s Premium iAudit system offers a truly convenient solution: the integrated microchip provides storage capacity for the last 1,000 events.

Standard Audit

All operations effected on a safe must be documented. Includes Audit log for the last 100 events.

SAM

The unique Dometic safe management system (SAM) allows for iAudit Trail and one time emergency code generation (REOS) from a user friendly but PIN secured internet based software tool.

DOMETIC PREMIUM CLASS SAFES

Protection for more privacy – comfortably and with absolute reliability. With a Dometic Premium Class proSafe, a hotel room becomes a perfectly private haven for the guest. A safe place for storage, conceived and implemented according to the newest standards. Its innovative and customizable design suits every hotel in a stylish way. Smooth surfaces and rounded edges make it easy to look after and give it long-lasting character. A color display and the integrated soft-touch

keypad make operation easy. And a Premium Class proSafe also breaks new ground when it comes to protective properties: pioneering technology like the unique iAudit and the antitampering system ensure security on all levels. The demand for contemporary security systems with added convenience is supported by special features such as REOS 2.0 software with its emergency code-opening system (optional).

DOMETIC STANDARD CLASS SAFES

ROBUSTLY MADE WITH USER-FRIENDLY FEATURES AND FUNCTIONS

It puts hotel guests’ mind at rest to have a safe place for their valuables while travelling. Providing a secure space for important or valuable objects yet it is a distinctive feature when choosing a hotel room or suite. With a Standard Class proSafe, you can create a reliable spot in a guest room that is worth every penny. Security and functionality are paramount with all Dometic safe models. The Standard Class safe models offer your guests a high level of security thanks to their robust construction. Their simple and intuitive usability also provides perfect comfort and convenience.

- Robust and reliable
- LED display
- LED interior light
- Master key and master code emergency opening with an external CEU device
- Standard Audit
- Wide choice: horizontal or top-opening

DOMETIC PROSAFE MD 390 / 450 SAFE INVESTMENT

The doors on all the Standard Class safe models are precisely cut and crafted. Their robust construction and a locking system with extra-strong steel bolts leave no point of attack for burglars. The LED interior light minimises the risk of forgotten valuables. Fast and secure emergency opening is possible with a master key or by an external emergency opening device

- Robust, reliable construction for optimal safety
- LED interior light makes the contents visible at a glance
- Emergency opening with master key or or an external service device.

DOMETIC PROSAFE MDT TOP-OPENING SAFE

Part of the Dometic Standard Class series, the Dometic proSafe MDT 400 X top-opening safe provides a simple, yet ingenious solution that is easy to operate and safe to use. The top-opening drawer safe can be integrated in an existing furniture drawer and provides easy access to guests’ valuables. At the same time it meets the highest demands on ergonomic design, comfort and security with an LED interior light, master key and service unit possibilities in case of emergency, digital LED illuminated keypad, four-digit code and top-opening stabilizer arm. An audio signal confirms that the safe is securely locked.

- Convenient access from above
- LED interior light makes the contents visible at a glance
- Enough room to fit laptop and tablet computers
- Ideal for installation into existing hotel room drawer
- Stabilizer arm for smooth opening and closing of the lid

Easy operation
The operation is easy to understand and explained via the pictogram.

Handle
Integrated handle for easy opening and closing.

Light the way
Standard LED interior lighting.

Soft close
Muted door closing.

INTRODUCING THE DOMETIC DRAWBAR

TAILORED TO YOUR TASTE

Re-creating the feeling of a perfect evening out in the comfort of your own kitchen means getting the details right. Like un-corking a good wine and serving it at the optimal temperature, at just the right moment. The Dometic DrawBar blends elegantly into your hotel room and adds a unique finishing touch to your property. It’s an enticing detail that elevates every glass and turns it into a memorable experience.

KEY FEATURES

A PERFECT WINE EXPERIENCE

For optimal serving temperature, select one of five pre-set options, professionally tailored for different types of wine: 41, 46, 52, 57 or 63 °F.

COMPACT WINE STORAGE

The Dometic DrawBar is always close at hand and fits up to five bottles, from long Riesling to large Champagne.

CONTROLLED STORING ENVIRONMENT

Powerful and efficient compressor cooling technology with electronic controls. Humidity-control tray further improves the storing environment.

DESIGNED TO STAND OUT

Soft illumination elegantly showcases your wine bottles and adds a touch of luxury to your kitchen.

PERFECT FIT

Glass or custom front panels ensure a refined and coordinated finish to your kitchen design.

MOBILE COOLING

COLD DRINKS & ICE CREAM

ALWAYS AVAILABLE ANYWHERE, ANYTIME.

Bring cold drinks or ice cream to your guests to remote places, even where electricity is not available. Enjoy reliably healthy food and cold drinks thanks to Dometic’s market leading VMSO3 variable-speed compressor cooling technology. Its optimized software ensures superior cooling and energy efficiency. The CFX3 features durable

and lightweight fender frames to protect the cooler, making it ideal for use in harsh outdoor environments. Strong, spring-loaded aluminum handles make it easy to lift and carry. Adjust the cooling temperature of your CFX3 on the TFT display screen or download the Dometic app and roam free without worry. Cheers.

DOMETIC CFX3

YEARS OF INNOVATION FOR COOLING PERFECTION

Keep your product at the right temperature at all times. We can provide you with a mobile refrigeration solution. Our portable compressor coolers fit for demanding cooling tasks in harsh environments. Being very powerful they provide excellent cooling performance, even at extremely high ambient temperatures. The CFX3 features durable and lightweight fender frames to protect the cooler. Strong, spring-loaded aluminum handles make it easy to lift and carry. Adjust the cooling temperature of your CFX3 on the TFT display screen or download the Dometic app and roam free without worry.
